

Level 3 Riders: Intermediate Riders

- q Encourages Thinking Riders. Riders will start to focus on refining the use of their aids and other technical aspects of good horsemanship. They will start to identify problems on their own and make corrections. They may step up in school horse levels.

Includes:

- q Leads at the canter or lope
- q More involved transitions
- q More complex rein, leg and seat aids
- q Backing
- q Improving the seat at the trot, and canter
- q Patterns
- q Western Riders- Start training movements such as turn backs on the rail
- q English Riders- Ride on contact, lines of fences, jumps and simple courses up to 2 feet.
- q Feeding and Feeds, Bits and Bitting, Artificial Aids, Care of equipment

Level 4 Intermediate –Advance Riders

- q Riders will be challenged by actually schooling horses, Riding skills are becoming second nature and the rider is helping to better the horse
- q The rider should understand
 - q Horse balance and collection
 - q Extension and working gaits
 - q Evaluation of their own performance and that of the horse
 - q Leg yielding, turns on the forehand and haunches, lead changes
 - q Perfecting transitions, balanced stops from the lope
 - q Roll backs, head sets and collection
 - q Signs of soundness, hoof care, conformation , vaccinations, deworming
